

WORKPLACE REHABILITATION POLICY

Chandler Macleod believes that all employees are entitled to effective rehabilitation and support in the event of an injury or illness. Employee care is our priority and we believe our approach provides employees with the best opportunity to achieve a full and sustained recovery.

WE WILL ACHIEVE THIS BY:

- Making safety our first priority
- Promoting early incident and injury reporting
- Providing an immediate response to injury
- Facilitating access to quality medical care
- Injury coordination, monitoring and support by qualified injury management coordinators
- Ensuring employees are not disadvantaged by encouraging participation in return to work planning
- Going beyond compliance and seeking best practice injury management outcomes
- Developing and providing access to procedures that support our injury management program

Cameron Judson
Chief Executive Officer
